### Critique

Due Thu 10/1/15, 3pm (in class)

You will be assigned a classmate's Graphic Design project submission to critique. We will send you a project to critique on the weekend of 9/26/15, after the Project 1 initial submissions are turned in.

Please submit (hardcopy, in class)

- a **copy of the Critique Submission Form**, with rubric circled appropriately, and with your comments (both positive feedback and constructive criticism); and
- (optional) a **printout of the classmate's submission**, marked up with specific feedback and stapled to the Critique Submission Form.

<b>Component</b>	<b>Competent</b>	<b>Not yet competent</b>
<b>Critique</b>	Markup of Graphic Design project rubric is appropriate for the submission and shows understanding of project learning objectives. Markup of classmate's submission highlights positive and critical comments, consistently with the other feedback. Detailed comments are supportive and constructive.	Rubric markup does not match level of the submission. Submission markup does not relate to other feedback. Comments are not detailed, are rude or otherwise unsupportive, or are purely critical.
<b>Administrivia</b>	All parts of critique are submitted together and on time.	Parts of critique are missing.
